Michael T. Ryan, Ph.D., C.H.P.
Associate Professor and Program Director
Environmental Health Sciences Department
Medical University of South Carolina
Charleston, South Carolina 29425

Dear Dr. Ryan:

I am writing to invite you to become a member of the Scientific Review Group (SRG) for the Department of Energy (DOE)-funded work under the auspices of the Joint Coordinating Committee for Radiation Research Effects (JCCRER).

This program was established in 1994, as part of the Intergovernmental Russian-American Agreement on "Cooperation in Research on Radiation Effects for the Purpose of Minimizing the Consequences of Radioactive Contamination on Health and the Environment." The SRG meets once or twice a year to provide scientific peer review, evaluate research progress, and make recommendations to DOE on research priorities.

I believe your expertise in dose reconstruction will benefit greatly the group of experts presently serving as SRG members (see enclosed listing). Should you choose to become an SRG member, your travel and per diem necessary for participation in the meetings will be covered by DOE.

I hope that you will accept this invitation. If you have any questions, please call Dr. Ruth Neta on (301) 903-1757 or me on (301) 903-5926.

Sincerely,

A handwritten signature in dark ink, appearing to read "P. J. Seligman", is written over a horizontal line.
